DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/25/2009 has been entered.
2. This Office Action is in response to the Amendment and IDS filed on 11/25/2009 and 12/2/2009. Claims 1-14 were canceled. Claims 15-27 are now pending.

Examiner's Amendment

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ricardo Unikel on 1/19/2010.

4. The application has been amended as follows:

Claim 18, line 6, change “ange” to -- range --.

Allowable Subject Matter

5. Claims 15-27 are allowed.

6. The following is an examiner's statement of reasons for allowance:

The present claims are allowable over the closest reference: Takeuchi et al. (JP 56109205).

Takeuchi et al. disclose a rubber composition and a tire made from the rubber composition, containing a 2-40% content of a syndiotactic 1,2-polybutadiene with a melting point of 180 – 220°C, and a cis-1,4-polyisoprene or natural rubber (claim), wherein the 1,2-polybutadiene is finely (micro) dispersed in the cis-1,4-polyisoprene or natural rubber matrix (first paragraph on page 10 in translation). This rubber can further be blended with natural rubber or isoprene rubber for tire applications (Table 3 Working Example 3, second paragraph on page 10 in translation, first paragraph on page 3 in translation).

Thus, Takeuchi et al. do not teach or fairly suggest the rubber composition, wherein the composition comprises, in particular, vinyl-cis-polybutadiene rubber, cis-polybutadiene rubber, and specific amount of silica.

In light of the above discussion, it is evident as to why the present claims are patentable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to HUI CHIN whose telephone number is (571)270-7350. The examiner can normally be reached on Monday to Friday; 8:00am - 5:00pm EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on 571-272-1114. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
